

Jane Smith Contact: jane.smith@email.com

Professional Summary Results-driven Machine Learning Engineer with 3+ years of experience in **building and deploying** robust **machine learning** systems. Proficient in **Python** and experienced in managing **scalable ML pipelines** on major **cloud platforms**.

Technical Skills

- **Core Libraries:** Scikit-learn, NumPy, Pandas
- **Deep Learning:** TensorFlow, PyTorch
- **Cloud Computing:** GCP, AWS
- **Tools:** Docker, Kubernetes, SQL

Professional Experience Machine Learning Engineer | Cloud Solutions Inc.

- Built automated **ML pipelines** on **GCP** for model training and serving.
- Managed the **end-to-end machine learning lifecycle** for a recommendation engine.
- Utilized **TensorFlow** to develop a **Natural Language Processing** model.
- Wrote complex **SQL** queries for large-scale **data preprocessing** and analysis.
- Used **Docker** and **Kubernetes** to deploy production models.
